

HÜLLER HILLE

Solid. Precise. Customised.

HÜLLER HILLE has been making machining centres for heavy-duty machining for over 70 years.

Our employees know how precision works in the international market.

We are seeking to recruit the following role at the earliest opportunity:

Hydraulics technician [m|f|d]

Full-time

Job description

- + Independent hydraulic installation of PLC/NC-controlled machines
- + Read drawings and plans
- + Install hydraulic assemblies as well as hydraulic fault analysis and adjustments
- + Specify machining operations and processes
- + Set and test machine functions and conduct final inspections
- + Run data acquisition and manage machine files
- + Adhere to and implement 5S standards
- + Work with design/construction and other departments

Your profile

- + Technical apprenticeship in a metalwork-related field or appropriate training
- + Preferably 2 - 3 years of professional experience in the production of machine tools
- + Confident using measurement and testing tools
- + Willing to work on assembly and installation assignments both nationwide and abroad
- + Able to work independently, resilient and flexible
- + Customer friendly and willing to undergo further training independently
- + Good knowledge of written and spoken English and 5S knowledge desirable

We look forward to receiving your application.
